

DISCLOSURE AND CONSENT

TO THE PATIENT: You have the right as a patient to be informed about your condition and the recommended anesthetic/analgesia to be used so that you may make the decision whether or not to receive the anesthesia/analgesia after knowing the risks and hazards involved. This disclosure is not meant to scare or alarm you; it is simply an effort to make you better informed so you may give or withhold your consent to the anesthesia/analgesia.

1. I (we) voluntarily request Doctor(s) Matthew Porter, M.D. as my physician(s), and such associates, technical assistants and other health care providers as they may deem necessary, to treat my **condition** which has been explained to me (us) as (**lay terms**): Glaucoma: Elevated pressure which is damaging the optic nerve inside of my eye, which can lead to permanent blindness.

2. I (we) understand that the following surgical, medical, and/or diagnostic **procedures** are planned for me and I (we) voluntarily consent and authorize these **procedures (lay terms)**: Ahmed Valve Implantation -a small flexible tube is inserted into the eye to drain the excess fluid and lower the suboptimal eye pressure with human donor patch graft.

Please check appropriate box: Right Left Bilateral Not Applicable

3. I (we) understand that my physician may discover other different conditions which require additional or different procedures than those planned. I (we) authorize my physician, and such associates, technical assistants, and other health care providers to perform such other procedures which are advisable in their professional judgment.

4. Please initial Yes No

I consent to the use of blood and blood products as deemed necessary. I (we) understand that the following risks and hazards may occur in connection with the use of blood and blood products:

- a. Serious infection including but not limited to Hepatitis and HIV which can lead to organ damage and permanent impairment.
- b. Transfusion related injury resulting in impairment of lungs, heart, liver, kidneys and immune system.
- c. Severe allergic reaction, potentially fatal.

5. I (we) understand that no warranty or guarantee has been made to me as to the result or cure.

6. Just as there may be risks and hazards in continuing my present condition without treatment, there are also risks and hazards related to the performance of the surgical, medical, and/or diagnostic procedures planned for me. I (we) realize that common to surgical, medical and/or diagnostic procedures is the potential for infection, blood clots in veins and lungs, hemorrhage, allergic reactions, and even death. I (we) also realize that the following hazards may occur in connection with this particular procedure: Pain, severe bleeding, infection, complications requiring additional treatment and/or surgery, worsening of the glaucoma, partial or total blindness, too low pressure/collapse of the eye, extrusion of the tube, damage to the cornea, cataract formation, retinal detachment, need for more surgery, loss of vision, loss of eye, drooping of eyelids, severe inflammation, retinal swelling, restricted eye movement

7. I (we) understand that Do Not Resuscitate (DNR), Allow Natural Death (AND) and all resuscitative restrictions are suspended during the perioperative period and until the post anesthesia recovery period is complete. All resuscitative measures will be determined by the anesthesiologist until the patient is officially discharged from the post anesthesia stage of care.
