

DISCLOSURE AND CONSENT MEDICAL AND SURGICAL PROCEDURES

TO THE PATIENT: You have the right as a patient to be informed about your condition and the recommended surgical, medical or diagnostic procedure to be used so that you may make the decision whether or not to undergo the procedure after knowing the risks and hazards involved. This disclosure is not meant to scare or alarm you; it is simply an effort to make you better informed so you may give or withhold your consent to the

procedure.	mora your consent to the
1. I (we) voluntarily request Doctor(s)	as my physician(s),
and such associates, technical assistants and other health care providers as they may my condition which has been explained to me (us) as (lay terms):	deem necessary, to treat
2. I (we) understand that the following surgical, medical, and/or diagnostic proced and I (we) voluntarily consent and authorize these procedures (lay terms): Explorincision surgery) and lysis of adhesions (remove scars) and possible removal of abstraining an abnormal pelvic organ	catory Laparotomy (open
Please check appropriate box: ☐ Right ☐ Left ☐ Bilateral ☐ Not Applicable	
3. I (we) understand that my physician may discover other different conditions who different procedures than those planned. I (we) authorize my physician, and su assistants, and other health care providers to perform such other procedures which professional judgment.	ach associates, technical
4. Please initial Yes No	

I consent to the use of blood and blood products as deemed necessary. I (we) understand that the following risks and hazards may occur in connection with the use of blood and blood products:

- Serious infection including but not limited to Hepatitis and HIV which can lead to organ damage and permanent impairment.
- Transfusion related injury resulting in impairment of lungs, heart, liver, kidneys and immune b.
- Severe allergic reaction, potentially fatal. c.
- 5. I (we) understand that no warranty or guarantee has been made to me as to the result or cure.
- 6. Just as there may be risks and hazards in continuing my present condition without treatment, there are also risks and hazards related to the performance of the surgical, medical, and/or diagnostic procedures planned for me. I (we) realize that common to surgical, medical and/or diagnostic procedures is the potential for infection, blood clots in veins and lungs, hemorrhage, allergic reactions, and even death. I (we) also realize that the following hazards may occur in connection with this particular procedure: Pain, severe bleeding, infection, injury to intra-abdominal structures such as bladder, bowel and ureter (the tube between the kidney and the bladder), blood vessels, nerves, and other internal organs, intra-abdominal abscess and infectious complications, (e.g. hematoma/bleeding, leakage of fluids or hernia formation), pelvic adhesions and scarring, possible loss of fertility requiring hysterectomy (removal of uterus), oophorectomy (removal of ovaries, and salpingectomy (removal of fallopian tubes), infection, possible need for C-section in future pregnancy, cardiac dysfunction/arrhythmia's, residual pain due to entrapment of nerves in scar tissue, temporary or permanent numbness in skin around incision, poor cosmetic results
- I (we) understand that Do Not Resuscitate (DNR), Allow Natural Death (AND) and all resuscitative restrictions are suspended during the perioperative period and until the post anesthesia recovery period is complete. All resuscitative measures will be determined by the anesthesiologist until the patient is officially discharged from the post anesthesia stage of care.
