- (a) Lymphangiography.
- (b) Discography.
- (c) Lumbar puncture with/without injection of medication.
- (d) Nerve root injection, epidural injection, nerve blocks, and radiofrequency treatments for pain control.
- (e) Venography (Venogram) with contrast media by peripheral IV.
- (f) Cholangiography with contrast media through existing drain; T-tube cholangiography.
- (g) Urography (IVP) with contrast media.
- (h) Radionuclide scans and/or blood flow studies.
- (i) Gastrointestinal (GI) tract radiography and fluoroscopy.
- (j) Nasogastric/nasojunal tube placement with fluoroscopy.
- (k) Percutaneous gastrostomy/gastrojejunostomy.
- (l) Fistula or sinus tract injection.
- (m) Sialography.
- (n) Dacryocystography, stenting.
- (o) Cystography, cystourethrography.
- (p) Retrograde and antegrade urography.
- (q) Larynography, bronchography.
- (r) Hysterosalpingography.
- (s) ERCP (Endoscopic retrograde cholangio pancreatography).
- (t) Galactography.
- (u) Skeletal radiography and/or fluoroscopy (skull, mastoids, sinuses and facial bones; spine, ribs, pelvis; extremities).
- (v) Foreign body radiography and/or fluoroscopy and foreign body retrieval.

- (w) Chest and abdomen radiography and fluoroscopy.
- (x) Portable radiography/fluoroscopy.
- (y) Pelvimetry, fetogram.
- (z) Magnetic Resonance Imaging/Magnetic Resonance Angiography without and with contrast.
- (aa) Computed tomography scan/computed tomography angiogram without and with contrast media.
- (bb) Ultrasound and Doppler studies.
- (cc) Laminography, polytomography.
- (dd) Soft-tissue radiography including xeroradiography and xeromammography.
- (ee) Arthrography, arthrocentesis, tenography.
- (ff) Ureteral or urethral balloon dilatation/stent.
- (gg) Percutaneous suprapubic cystostomy.
- (hh) Cyst aspiration/drainage/sclerosis.
- (ii) Percutaneous or transvascular biopsy.
- (jj) Paracentesis.
- (kk) Thoracentesis.

§ 604.1. Disclosure and Consent Form

(a) The Texas Medical Disclosure Panel adopts the following form which shall be used by a physician or health care provider to inform a patient or person authorized to consent for the patient of the possible risks and hazards involved in the medical treatments and surgical procedures named in the form. Except for the procedures shown in subsection (b) of this section, the following form shall be used for the medical treatments and surgical procedures described in Chapter 602 of this title (relating to Procedures Requiring Full Disclosure of Specific Risks and Hazards--List A). Providers shall have the form available in both English and Spanish language versions. Both versions are available from the Health and Human Services Commission.

(1) English form.

(b) Informed consent for:

(1) radiation therapy shall be provided in accordance with § 604.2 of this chapter (relating to Disclosure and Consent Form for Radiation Therapy);

(2) electroconvulsive therapy shall be provided in accordance with § 604.3 of this chapter (relating to Informed Consent for Electroconvulsive Therapy);

(3) hysterectomy procedures shall be provided in accordance with § 604.4 of this chapter (relating to Disclosure and Consent Form for Hysterectomy); and

(4) anesthesia and/or perioperative pain management (analgesia) procedures shall be in accordance with § 604.5 of this chapter (relating to Disclosure and Consent Form for Anesthesia and/or Perioperative Pain Management (Analgesia)).

25 TAC § 604.2

This document reflects all regulations in effect as of December 31, 2023

TX - Texas Administrative Code > TITLE 25. HEALTH SERVICES > PART 7. TEXAS MEDICAL DISCLOSURE PANEL > CHAPTER 604. DISCLOSURE FORMS

§ 604.2. Disclosure and Consent Form for Radiation Therapy

The Texas Medical Disclosure Panel adopts the following form to be used by a physician or health care provider to inform a patient or person authorized to consent for a patient of the possible risks and hazards involved in the radiation therapy named in the form. This form is to be used in lieu of the general disclosure and consent form adopted in § 604.1(a) of this chapter (relating to Disclosure and Consent Form) for disclosure and consent relating to only radiation therapy procedures. If a surgical or anesthetic procedure is required in combination with a radiation therapy procedure, the general disclosure and consent form as adopted in § 604.1(a) of this chapter and the form adopted in this section shall be used. The general disclosure and consent form shall be used for the surgical or anesthetic procedure and the radiation therapy disclosure and consent form shall be used for the radiation therapy procedure. Providers shall have the form available in both English and Spanish language versions. Both versions are available from the Health and Human Services Commission.

25 TAC § 604.3

This document reflects all regulations in effect as of December 31, 2023

TX - Texas Administrative Code > TITLE 25. HEALTH SERVICES > PART 7. TEXAS MEDICAL DISCLOSURE PANEL > CHAPTER 604. DISCLOSURE FORMS

§ 604.3. Informed Consent for Electroconvulsive Therapy

(a) Health and Safety Code (HSC) § 578.003, relating to Consent to Therapy, requires the Texas Department of State Health Services (DSHS) to adopt a standard written consent form to be used when electroconvulsive therapy is considered. [HSC § 578.003](#) requires that the form include the minimum information which is also required by the Texas Medical Disclosure Panel (panel) for electroconvulsive therapy. [HSC § 578.003](#) states that use of the consent form prescribed by DSHS in the manner described by [HSC § 578.003](#) creates a rebuttable presumption that the disclosure requirements of [Texas Civil Practice and Remedies Code § 74.102](#) have been met.

(b) The panel recognizes that DSHS has adopted a written consent form for electroconvulsive therapy in § 405.108 of this title (relating to Informed Consent to ECT).

(c) If the DSHS consent form is in compliance with [HSC § 578.003](#), and contains the minimum information required by the panel for electroconvulsive therapy, specifically the risks and hazards identified by the panel, a physician or health care provider using the DSHS consent form for electroconvulsive therapy is not required to use both the DSHS form and the panel's Disclosure and Consent - Medical Care and Surgical Procedures form to document consent for the electroconvulsive therapy. This section does not constitute approval of DSHS's current consent form or of DSHS's assessment of the risks and hazards associated with electroconvulsive therapy.

(d) If the physician or healthcare provider will be administering List A anesthesia or analgesia in conjunction with electroconvulsive therapy, the panel recommends utilization of the panel's Disclosure and Consent - Anesthesia and /or Perioperative Pain Management (Analgesia) form set out at § 604.5(1) or (2) of this chapter (relating to Disclosure and Consent Form for Anesthesia and/or Perioperative Pain Management (Analgesia)) to document disclosure and consent for the anesthesia and analgesia. The panel's form includes the risks and hazards identified by the panel for List A anesthesia and analgesia.
