

DISCLOSURE AND CONSENT MEDICAL AND SURGICAL PROCEDURES

TO THE PATIENT: You have the right as a patient to be informed about your condition and the recommended surgical, medical or diagnostic procedure to be used so that you may make the decision whether or not to undergo the procedure after knowing the risks and hazards involved. This disclosure is not meant to scare or alarm you; it is simply an effort to make you better informed so you may give or withhold your consent to the procedure.

1. I (we) voluntarily request Doctor(s) _____ as my physician(s), and such associates, technical assistants and other health care providers as they may deem necessary, to treat my **condition** which has been explained to me (us) as (**lay terms**): Total or near total occlusion of vessel in the legs or arms causing severe flow reduction to legs and feet

2. I (we) understand that the following surgical, medical, and/or diagnostic **procedures** are planned for me and I (we) voluntarily consent and authorize these **procedures (lay terms)**: Peripheral Arteriogram- (injection of dye through the tube to the arteries and taking x-rays), Possible Angioplasty with Possible Stent- (placement of a small balloon-tipped catheter in the narrowed segment of the artery and inflation of the balloon to expand the narrowing

Please check appropriate box: Right Left Bilateral Not Applicable

3. I (we) understand that my physician may discover other different conditions which require additional or different procedures than those planned. I (we) authorize my physician, and such associates, technical assistants, and other health care providers to perform such other procedures which are advisable in their professional judgment.

4. Please initial **Yes** **No**

I consent to the use of blood and blood products as deemed necessary. I (we) understand that the following risks and hazards may occur in connection with the use of blood and blood products:

- a. Serious infection including but not limited to Hepatitis and HIV which can lead to organ damage and permanent impairment.
- b. Transfusion related injury resulting in impairment of lungs, heart, liver, kidneys and immune system.
- c. Severe allergic reaction, potentially fatal.

5. I (we) understand that no warranty or guarantee has been made to me as to the result or cure.

6. Just as there may be risks and hazards in continuing my present condition without treatment, there are also risks and hazards related to the performance of the surgical, medical, and/or diagnostic procedures planned for me. I (we) realize that common to surgical, medical and/or diagnostic procedures is the potential for infection, blood clots in veins and lungs, hemorrhage, allergic reactions, and even death. I (we) also realize that the following hazards may occur in connection with this particular procedure: Pain, severe bleeding, infection, injury to or occlusion (blocking) of artery which may require immediate surgery or other intervention, damage to parts of the body supplied by the artery with resulting loss of use or amputation (removal of body part), worsening of condition for which the procedure is being done, stroke and/or seizure (for procedures involving blood vessels of the spine, arms, neck, or head), contrast-related, temporary blindness or memory loss (for studies of the blood vessels of the brain), paralysis (inability to move), and inflammation of nerves (for procedures involving blood vessels supplying the spine), contrast nephropathy (kidney damage due to the contrast agent used during procedure), thrombosis (blood clot forming at or blocking the blood vessel) at access site or elsewhere, failure of procedure or injury to blood vessel requiring stent (small permanent tube placed in blood vessel to keep it open) placement or open surgery, change in procedure to open surgical procedure, failure to place stent/endoluminal graft (stent with fabric covering it), stent migration (stent moves from location in which it was placed), vessel occlusion (blocking)
