

Medically Indicated Breastfeeding Supplementation

Breastfeeding Supplements:

- Maternal Breast Milk
- Donor Breast Milk
- Infant Formula

Suggested Supplementation Amounts:

- Day 1 5 – 7 mL
- Day 2 7 – 12 mL
- Day 3 18 – 25 mL

Administer feeding via spoon, cup, syringe, tube, bottle, or SNS (whether medically indicated or following informed decision of the mother). AVOID artificial nipples when possible.
